

THE PIANO BOAT

The world's most intimate concert hall

FRIENDS OF THE PIANO BOAT

The Piano Boat represents a unique new way of bringing classical music to audiences surrounded by the beauty and intrigue of Britain's inland waterways. Returning to the age of intimate salon performances, we create unforgettable musical experiences for a small number of guests on board.

The boat itself, 'Rachmaninov', has been designed and built in 2020 to the exact specifications required for its role as a concert boat on the canals. In order to keep this floating concert hall running, it will cost us tens of thousands of pounds per year, and with COVID-19 hitting the world just as we were about to begin cruising, your support will

greatly help us as we prepare the necessary measures to ensure all customers will be safe on board as soon as we are able to operate in these exceptional times. You will also be supporting our role in bringing classical music to new audiences across England's canal system, helping to keep music and culture alive against this magnificent historical backdrop.
